PERSONAL PROJECTS

E-Commerce Fashion Website (10/2022 - 11/2022)

- Based on a business my wife would like to start. I built a dummy full-stack e-commerce fashion site. Given the scale of the project, I was required to learn and apply tools such as Redux , TailwindCSS , and Typescript . The website features various types of products, product pages, a shopping cart a checkout system, and user authentication.

Wordle' (Slang Edition) (02/2022)

- Back when Wordle went viral. After a month of learning Javascript, I decided to make my own variant of this popular game, completely from scratch, and without referring to tutorials. My favorite project to date.

RPG Game App (07/2022)

- Inspired by my love for RPG's I decided to build one from scratch. This game features four playable characters (including myself!), a leveling-up system, and a nine-level roadmap with progressively difficult enemies
