WORK EXPERIENCE

Project Lead
Coder's Corner

02/2023 - Present

Open-source project that tops up developers' knowledge of programming languages , prepares them for interviews and provides AI-based code reviews

Achievements/Tasks

- Conceptualised, designed, and planned the project
- Leading the development team, working collaboratively with two other developers to bring the project to life
- Currently working on developing the prototype with the team
- Contributing to the project's codebase, actively reviewing and debugging code to ensure optimal functionality and user experience

DfE Software Engineering Bootcamp
Hyperion Dev

12/2022 - 03/2023

HyperionDev is southern Africa's largest tech education provider. Its main goal is technical education for anyone who wants to learn programming.

Achievements/Tasks

- Learned a variety of technologies such as Python, SQL, Django, and SQLite
- Worked with databases and data structures
- Learned and applied OOP skills to make a local email messaging system that creates, searches and filters through emails
- Set up virtual environments and created a website using the Django framework
- Created a CRUD app using Python and SQL as a backend
- Portfolio - https://www.hyperiondev.com/portfolio/132912/
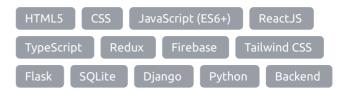

IT Technician
Skyline IT

09/2019 - 07/2021

Achievements/Tasks

- Maintained office PCs, networks, and mobile devices.
- Set up PCs, projectors, and microphones for use in video conferencing rooms.
- Trained users on how to operate components and systems.
- Provided basic end-user troubleshooting and desktop support.

Contact : Tahir Hussain

TECHNICAL SKILLS

HTML5 · CSS · JavaScript (ES6+) · ReactJS · TypeScript · Redux · Firebase · Tailwind CSS · Flask · SQLite · Django · Python · Backend

PERSONAL PROJECTS

E-Commerce Fashion Website (10/2022 - 11/2022)
- Based on a business my wife would like to start. I built a dummy full-stack e-commerce fashion site. Given the scale of the project, I was required to learn and apply tools such as Redux , TailwindCSS , and Typescript . The website features various types of products, product pages, a shopping cart a checkout system, and user authentication.

Back-end API (Flask/Python) (02/202 - 03/2023)
- Client needed a front-end app to access data from a Google Sheet and use it as required
- Wrote a back-end API using Flask and deployed it to G-Cloud as a server
- Connected the front end to the API and formatted the data according to the client's needs

RPG Game App (07/2022)
- Inspired by my love for RPG's I decided to build one from scratch. This game features four playable characters (including myself!), a leveling-up system, and a nine-level roadmap with progressively difficult enemies

CERTIFICATES / EDUCATION

Hyperion Dev - Software Engineering (12/2022 - Present)
Approximately 150 hours of studying, practising and completing tasks. Technologies learnt range from Python to Django and SQL

Scrimba Frontend Career Path (03/2022 - 10/2022)
Approximately 150 hours of studying, practicing and completing lessons starting from the basics to learning how to make full scale applications in React.

Frontend Development Libraries (10/2022 - 12/2022)
Developer certification representing approximately 300 hours of coursework.
