Seeking to maintain a full-time position that offers professional challenges utilizing interpersonal skills, excellent time management, and problem-solving skills.

Experience

Self-Taught Web Developer

January 2022 - Current

E-Commerce Fashion Website

https://bit.ly/3OX4Rj

Based on a business my wife would like to start. I built a dummy e-commerce fashion site. Given the scale of the project, I was required to learn and apply tools such as Redux, TailwindCSS, and Typescript. The website features various types of products, product pages, a shopping cart a checkout system, and user authentication.

Uses Typescript, React, Redux, TailwindCSS, Code Splitting

RPG game App

https://bit.ly/3un7yBq

Inspired by my love for RPG's I decided to build one from scratch.

This game features four playable characters (including myself!), a leveling-up system, and a nine-level roadmap with progressively difficult enemies.

Uses Object Oriented Programming to create classes, and instantiate objects.

Wordl Slang Edition App

https://bit.ly/3Vr0EqF

Based on the popular game "Wordle". In my second month of studying Javascript I decided to replicate this game from scratch without the use of tutorials. It features a new slang word of the day on a daily basis and provides definitions for those words. The slang words were retrieved from urbandictionary.com.

Uses DOM manipulation, event handling

Quiz App

https://bit.ly/3iyR4ni

A React App which fetches questions from a database and displays them when a player starts the game. Selected options are compared against the correct answers and a score out of five is given.

Uses React, Fetch API, state manipulation and management
